" Education is an important tool of social growth, which develops self-confidence and self-respect among the people. Higher education was the privilege of the people belonging to middle/higher income group. But the governments both at the centre and the state took several steps to make higher education available to the poor of rural and urban areas."

Lalpati Munesara Mahila Mahavidyalaya, Bhikharpur, Sanjay Nagar-Sultanpur(U.P.) was established in 2017 and affiliated to Dr. Rammanohar Lohia Avadh University, Ayodhya, to cater to the growing need for higher educational institutions for girls in the semi-urban and rural areas of Sultanpur. At present, the college conducts U.G. level courses in seven subjects – Hindi, English, Sanskrit, Home Science, Geography, Sociology, Ancient History.

The College is a dynamic and innovative institution with an unrivalled reputation in the pre-service training of teachers and youth. The college offers graduate programs leading to excellent careers as educators, counselors and educational specialists. The college offers numerous opportunities with highly cited faculties, institutes and laboratories. Our staff are respected as leaders in a wide range of curriculum areas, as consultants to a range of institutions nationally, and as facilitators of professional development contracts. One of the largest and most diverse institutions of its kind in the nation.
